General Comments
A renewal inspection occurred today, August 2, 2024.

General Comments

The children were observed during outside morning play, snack, lunch, and quiet/nap time. Handwashing was observed occurring after outside play, have diaper changing, washroom breaks, and before snack and lunch. Proper diaper changing procedures were also observed occurring.

Observed in the 2/3-year-old room an Educator hanging pieces of fabric over the windows and securing them with tape during nap/quiet time. Recommending that either blinds or curtains be installed to help make the room darker during nap/quiet time.

In the fenced in outside play area, recommending that the mulch be pulled out from under the back of the slide and put in front of the fall zone as it is accumulating behind the slide. This will help ensure the children have safe landing when the slide down the slide.

The children's current learning is documented and displayed in each of the learning environments. Educators were observed speaking kindly and appropriately to the children, redirecting behaviors using positive child guidance and tending to their individual needs in a timely manner.
