Comments: Toddler Room A: Children's bedding stored on top of each other. To be stored separately for each child.			

General Comments

A renewal inspection occurred today.

The children were observed in both indoors and outdoors environments. The educators were observed having meaningful conversations with the children, listening carefully allowing them time to think and express how they are feeling. Licensing observed flexible areas that are rich in opportunities for sensory learning, social interaction, language, exploration, manipulation, and representation. They are purposely designed and planned to enhance children's healthy development and learning. Educators accommodate children's emerging interests by making children's contributions and thinking visible through displays, documentation, photos and artwork.

Staff files and random review of children's files were reviewed.

General Comments

Handwashing and nap time observed.
