### General Comments

#### Monitoring Inspection:

Children and educators observed engaged in a variety of activities this morning including stories, art, dramatic play, fine motor activities and outdoor play. A librarian from the local library was observed reading stories and singing songs with the preschool group.

Purposeful planning is evident throughout each environment. Documentation, photos, and art projects are displayed in a way that allows children to revisit their experiences. Documentation includes connection to the NB Curriculum Framework.

New dramatic play kitchens, a tent and real-life materials have been added to the indoor environments.

#### Preschool Room:

Green shelf – paint is peeling, to be painted.

#### Outdoor Play Area:

QA Monitor discussed with administrator adding more materials to the outdoor play area. The outdoor play area currently has larger gross motor equipment; however, the small items are depleted. Examples of materials to include, but are not limited to balls, pots, pans, utensils, bowls, pylons, small vehicles, plants, art materials, clipboards, rulers, books, loose parts, tools, nets, magnifying glasses, containers (for bug catching/dumping/pouring), water play materials, mark making materials and materials that support the children's interests.

Monthly fire drills are documented.

Daily attendance records are accurate and reflect all children present.

New staff file (1) review was completed, all required documents are in place.

Child-to-staff ratio was observed to be met during Monitoring Inspection.
