### General Comments

Monitoring Inspection COVID-19 Recovery Phase.  
Observed screening procedures for staff at entry to the building. Signage and one way arrows are posted throughout the building. Completed a random review of the group log forms and those reviewed were completed properly.  
A healthy lunch was served at lunch time and enjoyed by the children.  
Cleaning checklists and procedures were posted and discussed.  
The children were engaged with their educators and peers during their lunch time routine. Some children were eager to share their recent art work and current interests (bugs, gardening, nature). The environment was reflective of current interests with documentation in the form of art work, structures, collages, paintings on the windows, and books. Children were observed playing outdoors and are reportedly spending a lot of time outside. There is a schedule in place for outdoor time to ensure that everyone is able to get outside, while also ensuring proper distancing between groups of children.
