Address 21 Pettingill Road Quispamsis NB E2E 6B1				
Name of Early Learning and Childcare Licensing Staff Kiesha Cobbett		Position Title Inspector		
Order for Compliance		Regulation	Date to be corrected	Date corrected

General Comments

A renewal inspection occurred today.

The children were observed reading stories, creating with perler beads, making safari animals with sticker art, sensory play using water, cups, sponges, eye droppers, soap, and squeeze bottles filled with assorted colors of paint. The educators showed they valued the children by taking their lead in play. All educators were observed playing with the children. The educators were observed adding to the children's current play experiences by offering to add new materials as they played.

Transitions in all rooms ran smoothly. All classrooms were observed going outside. The educators were observed having positive interactions with the children. The classroom environments were calm, and all the classrooms had a wide range of open-ended materials that were open and ready for all of the children to explore throughout the day.

Documentation and pictures of the children reflected the children's on-going learning interests. Educators displayed the children's learning in each classroom environment as well as the outside play environment. This allows children to revisit their previous play experiences as well as values the outside play environment.

The following records were reviewed: Incident logs, fire drills, and daily attendance sheets.

All staff files were viewed, and a random review of the children files was completed.

Licensing staff discussed the following with administrator:

1. Educators are to ensure government attendance sheets are accurate and reflect the number of children they currently have in their group.
2. Educators are to ensure small choking hazards are out of reach when pre-school children under the age of three are in attendance.
3. The wooden planter box in the outside play area is rotting and exposing nails. The administrator shared their plan to remove the box in the next two week. Quality Assurance Monitor to follow up on their next monitoring inspection.

General Comments

4. Educators are to ensure proper hand washing routines are followed. Administrator to review proper hand washing producers with the educators.

Facility is recommended for licensing.
