General Comments
Monitoring Inspection: Children and educators were observed engaged in a variety of outdoor play activities this afternoon including soccer, climbing on equipment, building with large loose parts, and dramatic play. A small group of children were exploring the wooded area to try and find salamanders, bugs and leaves. An inspection of the outdoor play area was conducted today. A variety of materials for both gross motor activities and quieter play were accessible to children, supporting a balance of active and calm play during outdoor play. Purposeful planning is evident through documentation, invitations and materials added to the environments that support the children's current interests. Each group has an ongoing project documented with learning experiences and photos of the children. Each environment has opportunities for painting. Handwashing routines were observed after school and before snack. Monthly fire drills are documented. Daily attendance records are accurate and reflect all children present. Child-to-staff ratio was observed to be met during Monitoring Inspection. Each educator was observed conducting headcounts during arrival and transitions to ensure all children are present.
