<b>General Comments</b>
<p>Beautiful displays of multiple forms of documentation throughout the children's learning environment based on the interests of the children. The children have been actively exploring many interests through a variety of hands on purposefully planned activities. The environments are rich in materials that are accessible on low open shelving. Educators are observed to be fully engaged with the children at their level and enhancing the children's participation through enthusiasm and animation. Literacy development is strongly promoted through print in the environment, books displayed throughout, modeling and reading. Implementation of the NB Curriculum Framework is evident through valuing culture and promoting relationships and friendships. It is apparent that the educators place a prominent emphasis on valuing children and their learning environment. The children were very engaging, inside and outside, and excited about learning.</p> <p>Recommending transition floor pieces into play house in the 2's/3's room.</p>
