General Comments
<p>Monitoring Inspection- Covid19 Recovery Phase</p> <p>All requirements under Recovery Phase Guide including screening, grouping, cleaning, etc. observed and being followed. Facility has obviously been working hard to meet all requirements and a good routine and system was observed during inspection. Handwashing routine observed multiple times during inspection.</p> <p>Indoor and outdoor environments set up with a variety of materials for the children. The use of individual containers for art materials is a great way to provide opportunities for children to engage in creative art and mark making. Children's interests evident in documentation displays posted throughout both learning environments and children eager to share what they have been working on. Literacy posted throughout the indoor and outdoor environments provides many opportunities for children to engage with print and language. Interactions between children and educators observed to be very positive, with educators asking open-ended questions , inviting children to share their thoughts and ideas and engaging in play along side children.</p> <p>Please update inspectors contact information to Breanne Jones.</p>
