ELCC Licensing Staff Jodi Hennessey	Position Title Inspector		

Order for Compliance	Regulation	Date to be corrected	Date corrected
----------------------	------------	----------------------	----------------

General Comments A renewal inspection was conducted in the morning for the full-day school-age program. Upon arrival, the Inspector observed educators organizing the children into smaller groups to participate in activities in various licensed areas throughout the facility. During the inspection, children were observed actively engaged in a variety of age-appropriate activities, including face painting, paper bag puppet making, card games, Connect 4, block building, imaginative play with action figures, drawing, board games, Loom band creations, and Perler bead projects. Educators indicated that children are provided with opportunities throughout the day to participate in each of the smaller group activities, based on their interests and preferences. The Inspector observed educators interacting positively with the children and utilizing appropriate positive child guidance and redirection techniques. The Administrator advised that the children have also been participating in off-site recreational activities, including visits to local splash pads and playgrounds. The Inspector reviewed the program planning and documentation binder, which contained photographs and captions highlighting activities and experiences the children have participated in throughout the past year while attending the school-age program. All licensing requirements for renewal were met and verified during the inspection. Based on the observations and documentation reviewed, the facility is recommended for license renewal.
