<p>General Comments</p> <p>Children engaged in play both indoors and outdoors. A variety of materials are accessible to the children in each interest center. Many new books and quality materials have been added to the learning environments throughout the facility.</p> <p>Educators have purposefully planned for outdoor play. Children engaged in snow painting and sliding on the front hill.</p> <p>Many positive interactions observed between children and educators. During lunch time all educators observed sitting and engaged in conversations with the children.</p> <p>The children's learning and interests are displayed in a variety of types documentation in each room. The white boards are updated daily to inform parents of the learning and play that has happened in their child's room. This is a wonderful way to keep families involved.</p> <p>Hand washing routines observed today.</p> <p>Recommend: Adding invitations to tables and interest centers for the children to explore when they come in from outdoors.</p>
