General Comments
<p>Completed renewal inspection today. This region is currently operating within the Orange phase of recovery and staff were observed to be following current guidelines. Evidence of cleaning schedule remains in place. Hand washing routines and screening procedures were observed during inspection. Children were engaged indoors within various interest centres with their peers as well as their educators. Implementation of the curriculum framework is evident within the environment. Multimodal literacies are highlighted throughout the rooms in the form of books, questions, menus, charts, poems, and recipes. The educators value the children's art and creations by displaying their work at the children's level for them to revisit as they wish. Books and stories have been used to help children make sense and understand their current world (ex: "Rona stole my fun" ). The children are also provided with plenty of opportunities for mark making and sensory play within their environment. During today's inspection, educators were observed supporting well being by encouraging the children to engage in movement indoors and outdoors, and prompting curiosity by asking the children questions prior to engaging in activities.</p>
