**General Comments**

A renewal inspection was conducted today, November 12, 2021.

A variety of children's interests are happening throughout the individual learning environments. Children have shown an interest in a variety of transportation methods, dinosaurs, and cell phones. Educators have documented conversations they have had with the children on the different topics of interests.

Children's webs are visible in each room depicting questions the children have asked during discussions and knowledge they have learned in answering these questions. Children's learning is evident in each environment. Art is beautifully displayed, learning stores, graphs/charts, pictures are posted throughout each room.

The children appeared happy and content in their learning environments and with their educators. The educators were observed down at the children's level in play and conversations. Educators were observed speaking kindly and respectfully to the children.
