General Comments
A Monitoring Inspection was completed this morning. Children were observed inside, preparing for outdoor adventures (Splash Pad, Playground Visit, Walk). Classrooms were set up with well-defined learning and play centers. A conversation was had with the educators in the 2's room, regarding art supplies. There were art supplies available, but as discussed, more art supplies are to be added. Several forms of documentation were observed throughout the facility. Positive child guidance techniques were observed - educators on the children's level, educators dancing with the children, educators taking part in play, educators offering choices, and educators using positive language.
