General Comments
<p>A renewal inspection occurred today.</p> <p>During the inspection it was observed the children preparing and going for a walk to explore the neighborhood. One group was going to see how many different Christmas decorations they could see on their walk. Discussed in the 3-year-old room organizing the creative art shelf and having the items available yet not accessible to young children. Having items such as google eyes, pompoms, etc in these covered containers so that the children have them available but only accessible under direct supervision by the Educators in the room. Discussed the same with Dinky cars in the room as well.</p> <p>A referral has been made to the Early Learning Consultants for the Educators/Staff to have on-site support. A healthy lunch was served of home-made Macaroni and Cheese with Black bean and corn salad. Handwashing was observed occurring numerous times during the inspection. The children's learning is documented throughout the facility in the form learning stories, pictures, charts, captions.</p>
