General Comments
<p>A Monitoring Inspection was completed this morning. Preschool children were observed during inside and outside play. Upon arrival, a group of children were observed playing with Barbies and a Barbie Doll House, a child was sitting at a table, playing with an Easter Egg activity, and a child was taking part in a counting activity. After playtime, children were observed washing their hands, and preparing for snack. After snack, children were observed getting ready for outside play. While outside, children were observed playing in the mud, ball play, and riding bikes.</p> <p>Several forms of documentation were observed throughout the facility and wonderful up to date binders, full of documented activities were available to review. Educators were very engaged with the children – sitting, chatting, and participating in play.</p> <p>A discussion was had with administrator and educators regarding the outside play area. The idea of adding a Sandbox was discussed, as was the idea of incorporating a small flower garden. There are presently two wooden boxes, full of dirt, that were originally made to be sandboxes. Both have been covered and they have not been used by the children. They are to remain covered, as they do not presently meet the requirements for Sand Play.</p>
