General Comments

A Monitoring Inspection was completed this morning. Children were observed during both inside and outside play. Infant Rooms - In room one, children were observed sitting in their highchairs, awaiting their snack. QAM observed diaper changing procedures, and all diaper changing procedures were followed. Room one was also observed playing outside, in a sheltered area, protected from the rain. In room two, children were getting ready for outside play. Room two children were also observed playing outside. The 3's were observed painting, playing with play doh, playing with a sensory bin, filled with tissue paper (making pretend ice creams), and building with magnetic blocks. A conversation was had with an educator regarding toy bins. Overall, bins were clean, but a reminder was given, to ensure that all bins were wiped down, during cleaning procedures. The 4/5's were observed sitting in the reading corner, listening to a story, being read by an employee of the local Library. After story time, children took part in a yoga activity, and a fishing game. A conversation was had with an educator regarding documentation, and how more up to date documentation was to be added. QAM was told that newer documentation had recently been sent home with the graduating preschoolers, and that educators were in the process of adding new summertime documentation, to their classroom.
