Order for Compliance	Regulation	Date to be corrected	Date corrected
10(8) For the purposes of this section, an infant may only be grouped with children of a mixed-age group outside the hours of 8:30 a.m. to 4:30 p.m. and on the condition that the infant is grouped with preschool children and other infants.	10(8)	Jan 17, 2024	
Comments: During the renewal inspection the attendance records in each room were reviewed. It was observed that during nap time a child in the 3-year-old room has been going to the Infant Room (15-23 Months) to sleep. This is not permitted, as infants cannot be mixed with preschool age children during the hours of 8:30am to 4:30pm. Discussed with Administrators and Educator during inspection. Discussed a solution so child(ren) who require naps can still have them.			
22 The daily routine of a licensed facility shall include (a) outdoor play for at least one hour in each four-hour block of time when the majority of children receiving services are in attendance except in the following circumstances: (i) the wind chill is below -20 °C; (ii) the temperature is below -20 °C; or (iii) the temperature is 33 °C with humidity or above.	22(a)	Jan 17, 2024	
Comments: During the inspection it was observed and after discussions with Educators, that the children in the 3-year-old room and the 4-year-old room were going outside from 7:30am-8:30am and then again from 3:30pm-4:30pm. This does not follow regulations that requires children to be outside for at least one hour in each four-hour block of time when the majority of the children are there. Discussed with Administrators and Educators during inspection and a change of daily routine to occur to ensure that all the children have the opportunity to go outside every day.			

General Comments
<p>A renewal inspection occurred today.</p> <p>Discussed with Administrators Professional Learning that is required by Educators. PL Hours completion follows licensing a year, for facility it is from March 1-February 28. The expectation is that Educators have their 10 Hours of PL completed by the license expiration each year.</p> <p>Discussions were had in regard to outside play time and mixing infants with preschool age children.</p> <p>The children were observed during morning snack, inside free play time, circle/story time, lunch and nap/quiet time. Diaper changing and handwashing was also observed occurring serving times throughout the inspection.</p> <p>In each of the learning environments there is a wide variety of materials for the children to interact and engage with.</p>

General Comments

Educators were observed actively engage with the children in their learning and play and redirecting behaviors appropriately.
