General Comments
Monitoring Inspection--COVID 19 Recovery Phase
Lady Bug Room--Discussed with educators adding more learning materials to the environment. Having bins to swap out mid day, will add new toys to the environment. Discussed having an "all-done" bucket for children to add toys to when they are done playing with them so they can be cleaned/sanitized.
Discussed with administrator, that is a recommendation that when an educator is covering breaks in one room and then goes to another room to cover breaks they should be wearing a masks to protect themselves and the children. Discussed the group log and ensuring that these are filled out when group is created as well as verified by someone and dated.
Children in all the rooms appeared happy and content in their environments and with the educators. Ocean Explorers were observed in outside play with bubbles during inspection. Positive interactions were observed.
