<p>General Comments</p> <p>A renewal inspection was conducted today on the preschool portion of the license only. The learning environment in the school-age area was inspected, however, no children were present in this area at time of inspection. During the follow up inspection, ratio in the school-age room will be taken as well. The children were observed during outside play, lunch, and inside play/quiet time. The learning environment in the preschool room is being transformed for Christmas with the addition of a tree and a large gingerbread house. Educators were observed having respectful and responsive conversations with the children in their care and tending to their needs.</p>
