<p>General Comments</p> <p>Visit to complete the renewal inspection.</p> <p>Upon arrival after school, the children were observed to follow the routine very well. Once arriving in their designated bubble group location, the children were greeted by name by their educators and asked about their school day. The children engaged in play in the learning centers of their choice with invitations for play set up and available to them. Educators were observed to participate along with the children while modeling kind and respectful interactions. Children and relationships were being valued by demonstrating enthusiasm for the children's ideas and interests, listening and talking with the children, in addition to encouraging reflection and positivity. Furthermore, each bubble group has been spending time reading and having conversations based on social emotional well-being. Staff report that the children have been strongly benefiting and the results are remarkable!</p> <p>Handwashing was observed throughout the afternoon.</p> <p>The children enjoyed a part of their afternoon in active outdoor play. Each bubble group had a large section of outdoor play space to have fun.</p> <p>Cleaning and disinfecting of props and materials is completed at the end of each day. The stage is set up for this process and a system is in place for rotation of activities.</p>
