### General Comments

#### Monitoring Inspection - PreK Program Only:

Children and educators observed engaged in a variety of activities this morning including dramatic play, open-ended art and block building. An invitation was set-up for children to explore drawing on and wrapping items with tin foil.

Purposeful planning is visible through invitations, materials added to the environment and documentation that supports the children's interests (dinosaurs and babies). Next steps - adding connections to the NB Curriculum Framework on documentation.

QA Monitor discussed with staff adding labels with words and photos to bins within the environment to support the children in cleaning up and organizing materials independently.
