Comments: Bleach unlocked on storage room floor. Ensure storage closet is locked when not in use. QA Monitor discussed with administrator on site.			

General Comments
Monitoring Inspection - Full Day Summer Day Camp: Children observed engaged in a variety of activities this morning including sand play, Perler beads, and outdoor play. The indoor play area is set-up with a variety of materials for the children to explore freely. Playdoh accessories were observed to be accessible; however, the playdoh was depleted. Ensure Playdoh is added. QA Monitor discussed the outdoor play equipment accumulating around the door to outside and on the window ledge. Outdoor play equipment, furniture and garbage cans were blocking the fire exit during inspection. QA Monitor brought this to the staff attention and the area was cleared immediately. Daily attendance records are accurate and reflect all children present. New staff file (3) review was completed, all required documents are in place. Child-to-staff ratio was observed to be met during Monitoring Inspection. Child-to-staff ratio was observed to be reduced and met for swimming this morning.
