<p><b>General Comments</b></p> <p>Completed monitoring inspection today- COVID-19 Recovery Phase. Children were engaged within their environments throughout the facility today. Also observed hand washing, nap time, and educators performing cleaning/sanitizing duties. Invitations were set up throughout the rooms for children to explore. Children within the 4s room were engaged in creative art today and they each had their own creative art materials bin. Educators left towers/constructions and forts up that the children had created previously that day. This was great to see, as the children were able to continue enjoying these following their nap. Discussed the importance of consistency with staff within the rooms for relief purposes with supervisor in order to limit the amount of contacts within each space. Recommended the addition of arrows on the floor within one of the rooms as children from 2 different bubbles are sharing the entryway into the room in order to get to their space. Discussed the frequency that washrooms are being cleaned, especially those that are shared between groups. Educators state that washrooms are cleaned between each bubble using these facilities.</p>
