Order for Compliance	Regulation	Date to be corrected	Date corrected
24(1) For the purposes of subsection 20(1) of the Act, the following records and documents shall be maintained on the premises of a licensed facility: (c) staff member records that include (ii) the staff member's qualifications including the certificates or training referred to in paragraph 11(b) or (c).	24(1)(c)(ii)	Mar 05, 2021	Feb 24, 2021
Comments: Deficiency is now compliant			
28(2) An operator of a licensed facility shall carry out emergency evacuation and fire drills monthly.	28(2)	Feb 17, 2021	Mar 17, 2021
Comments: Deficiency is now compliant			
28(3) The premises of a licensed facility shall comply with (a) lighting, ventilation and other general health standards under the Public Health Act.	28(3)(a)	Mar 17, 2021	
Comments: New soap dispensers were purchased for the washrooms, but are no longer working. Hand soap is currently being put up and was located on top off a cupboard within the washroom during today's inspection. Educator was advised to ensure soap is left on the counter within the children's reach at all times. (Previous comply by date of Feb.17, 2021).			
32(1) An operator of a licensed facility shall provide indoor play area materials and equipment that are (d) clean and in good repair.	32(1)(d)	Mar 18, 2021	
Comments: The corner of the cracked sensory bin has been repaired with tape. This repair is not satisfactory, and will need to be removed until it is replaced. To be removed immediately. (Previous comply by date of Feb.23/21).			
44 An operator of a licensed facility shall have a first aid kit that is equipped with the contents prescribed by New Brunswick Regulation 2004-130 under the Occupational Health and Safety Act as a first aid kit that is not a personal, Type P first aid kit, and a telephone in working order (a) on the premises of the licensed facility.	44(a)	Feb 17, 2021	Mar 17, 2021
Comments: Deficiency is now compliant			

<p>General Comments</p> <p>Follow up to renewal inspection was completed today. Some orders for compliance have been fixed, but some remain.</p>

General Comments

The children were observed during indoor and outdoor play. There is a new cleaning/sanitization schedule in place for the washroom being shared by multiple groupings. Educators advised that this is being cleaned/sanitized between groupings and cleaning schedule chart was reviewed. Educators also stated that the washroom located out in the hallway is also used when needed to reduce wait times. Soap dispensers must be accessible at all times for the children in the washrooms. If educators are concerned about excessive waste of the hand soap, more supervision is required. One of the rooms (3/4s and 4/5s room) has been rearranged in an effort to ensure separation between groupings. There was only one group of children within the room during today's inspection as the other group was outdoors. If double sided shelving is being used, educators must ensure that materials that can be accessed on either side (ex: art bins within the easel shelving area) are being cleaned/sanitized between groupings.

Outdoor play area was also inspected today as it was snow/ice covered at the time of the renewal inspection. Supervisor on site was advised that garbage , food wrappers and debris was collecting inside tires and within other areas of the children's outdoor play space. This was removed immediately. Recommending that facility implements an outdoor checklist to specifically monitor the outdoor play area to ensure it is clean for the children going forward.

Another follow up inspection is required to ensure compliance.
