General Comments Monitoring Inspection: Children were not observed on site this morning, as they were on a field trip to the Firefly Splash Pad. The QA Monitor conducted an inspection of the indoor play environments. Each room is set-up with a variety of materials displayed on low, open shelving. It was observed that materials have become disorganized, and some storage bins are in poor condition. The materials are to be organized and damaged bins are to be removed and replaced as needed. Recommendation - adding/updating labels on storage bins to support the children in tidying up independently. A new Lego workspace has been added to the Mini Gym with a variety of Lego for children to explore. The board and card games are becoming depleted and need replenished for the new school year. Monthly fire drills are documented. New staff file (4) review was completed; all required documents are in place for three of the files. The QA Monitor was able to confirm the documents of one file via email; ensure all regularly scheduled staff have a file on site.
