<p>General Comments</p> <p>Visit done at the facility for a monitoring inspection. Ratio was respected during the visit. In 2 of the 3 rooms, evidence of purposeful planning based on children's interest and learning, invitation, photos and learning stories were posted and written in the programming books. One of the educator was on vacation the day of the inspection, and possibly brought her programming book home. Therefore, QA monitor was able to see webbing and learning stories posted in her classroom. Quality assurance monitor updated staff information in the system. She was able to observe kids eat snack and play indoors. While QA monitor was on site, she observed an educator reading a story and signing Christmas song with her group, while other groups were out to the gym.</p> <p>No non-compliance during this visit.</p>
