Order for Compliance	Regulation	Date to be corrected	Date corrected
21 The daily activities of a licensed facility shall be purposely planned in advance and documented and shall respond to the capabilities, needs and interests of each child.	21	Feb 23, 2023	
Comments: The Quality Assurance monitor was on-site to verify the purposeful planning and documentation of the programming. For the morning preschool class, only a calendar of activities for this month was posted. QAM was not able to see any purposely planned activities nor documentation of the programming. QAM had a discussion with the administrator on site and will send her a tool that she can use if she wants. They must be able to demonstrate that they have developed ways to purposefully plan and document in order to comply with this element. Time will be provided to test strategies and methods that they will choose to adapt in their daily practice.			

<p>General Comments</p> <p>A visit was conducted during the preschool program. Ratio was respected during the visit. Quality Assurance Monitor was able to observe children play inside and eat snack.</p> <p>QAM asked the administrator for the checks of all board members in reference to the amendments to the Act: which requires checks be submitted to verify the suitability of all operators, including board of directors of non-profit organizations. Operator should review the email that was sent on September 2nd and the follow-up email that was sent on November 28th for any additional information. Quality Assurance Monitor will verify this element on her next visit.</p>
