### General Comments

The Quality Assurance Monitor is on site for a monitoring inspection. Since there were no children on site during the inspection, the Quality Assurance Monitor focused the inspection on the indoor play area and material. The required posted documents were visible and accessible.

During the monitoring inspection, the administrator and the quality assurance monitor discussed the current services provided by Playschool and the fee structure. The QAM and the administrator had a discussion regarding the parent subsidies. The QAM has provided the parent subsidies contact information to the administrator so that they may guide the parents appropriately.
