General Comments
<p>A wooden platform framed with wooden beams has been built in one classroom. Operator was not onsite and Administrator was unable to provide verification that the Operator consulted with Fire and Municipal authorities prior to building the wooden structure in the classroom. Operator is to send verification to the QA Monitor that the structure meets approval of municipality and fire prevention officer.</p> <p>One group was observed playing a game of "snowball fight" in the gym using balled up scrap paper and tables on their sides as "home bases" for each team. The staff brought music into the gym and then they played musical chairs. Gym time offers children the opportunity for indoor physical activity.</p> <p>Observed the later groups of children were asked to wash hands upon entering the building from school, before snack was served; this demonstrates that the Operator is encouraging proper hygiene practices.</p>
