General Comments

The Quality Assurance Monitor is on site for a monitoring inspection. The child-to-staff ratio was respected during the inspection.

The Quality Assurance Monitor verified the following elements:

- Access to a licensed facility
- Diaper changing
- Storage space
- Medication records
- Medication
- If the required documents are posted in a visible and prominent place in the facility
- The outdoor play area and equipment

The Quality Assurance Monitor had a discussion with the administrator regarding designation requirements. The administrator confirmed that the Quality Improvement Plan is current, and all eligible educators are actively completing their required 10 hours of professional learning per renewal year.

The QAM observed the children eating their snack (lunch boxes) and then transitioning to the outdoor play area.
