General Comments
<p>During the monitoring inspection the infants were gone for a walk and all other groups of children were playing in the outdoor play area. The outdoor play area is well-provisioned and has a variety of loose parts such as logs of difference shapes and sizes, the sand box was available and being used by several children. Storage boxes have been added throughout the area to store additional materials outside and create different centers of interest. Educators were positioned throughout the area providing supervision in each zone. The QAM observed one staff member offering support and guidance to an upset child by kneeling down at her level, using calming tones and offering hugs.</p>
