General Comments

The Quality Assurance Monitor is on site for a Monitoring inspection.

During the visit, the following elements were verified:

- Child to staff ratio
- if all required documents were posted in a visible and prominent place in the facility
- Outdoor play area

The ratio was respected at the time of the visit.

The QAM had a discussion with the operator regarding designation requirements. The operator informs the QAM that educators working with preschool children are working on finishing their 10 hours of professional learning, the parent committee members are having their meetings and the QIP is up to date. With that, all designation requirements will be met for the renewal of the license.

The Quality Assurance Monitor was able to observe children eat snack and get ready for an outing to the park.
