39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;	39(2)(a)	Mar 16, 2023	Mar 16, 2023
Comments: The downstairs storage door that the facility uses to store toxic products, chemical products and cleaning supplies was unlocked and children had access. These products must be locked and inaccessible to children at all time. Educator immediately locked the door. Deficiency is now compliant.			

General Comments
Visit done at the center for a monitoring inspection. Ratio was respected during the visit. During the monitoring inspection, the Quality Assurance monitor verified: - if all necessary documents were posted in a visible and prominent place in the facility. - storage space for toxic products, chemical products and cleaning supplies. - if all mandatory administrative records are maintained on-site QA monitor was able to observe the end of naptime, snack and indoor play. Positive interaction between educators and children were observed. Children presented to QA monitor the leprechaun trap they created, and they were really excited about the upcoming St-Patrick's day.
