General Comments

The Quality Assurance Monitor (QAM) was on site to conduct a monitoring inspection.
During the inspection, the following elements were reviewed and verified:

- Child-to-staff ratios
- Staff records (checks, qualifications, training, etc.)
- Administrative records maintained on site
- Medication records
- Health

While reviewing staff files, the Quality Assurance Monitor noted that job descriptions were missing from two staff files. The administrator immediately printed copies and added them to the respective files.
Additionally, one staff file was missing the Enrollment in the Introduction to Early Childhood Education (ECE) course form. This document was also printed immediately and added to the staff file.

During the inspection, children were observed participating in indoor play and preparing to eat lunch.
The Quality Assurance Monitor also measured the outdoor play area during the visit.
