General Comments
<p>Regulation 39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: a) toxic products, chemical products and cleaning supplies; b) medications. Inspector and operator discussed the locked storage area for the medications and toxic products used in the centre. Centre uses child locks on cabinets in the kitchen and bathroom and also has a safety gate to ensure children are not in the kitchen or bathroom unattended. Inspector advised that the gates must be closed at all time. A follow up on this behalf will be done by the Inspector or the Quality Assurance Monitor.</p> <p>A discussion was had about the purposely planned activities and documentation. Operator shared how she plans according to the children's interest. Evidence of children learning is visible in the center and shared with parents.</p> <p>Ratios were respected during time of inspection. Children were observed playing outside.</p> <p>Centre offers extended hours. Children at the centre will be using the extended hours this week.</p>
