General Comments

The Quality Assurance Monitor is on site for a monitoring inspection.

The following element were verified:

- Child guidance
- Staff member records include
- Qualifications and training
- Checks
- Outdoor play area
- Outdoor play area materials and equipment

While verifying staff files, it was noted that one staff member had an expired First Aid certificate on file. The Quality Assurance Monitor discussed this with the administrator, who explained that the updated certificate was located at the adjacent facility. The staff member promptly retrieved and submitted the current certification. The administrator was reminded of the importance of ensuring that all staff files are consistently updated and complete.

The Quality Assurance Monitor observed that the fence along the driveway between the centers was separating at the bottom, and that there was a hole near the mud kitchen area. The Monitor recommended monitoring the condition of the fence and repairing it promptly to prevent further damage.

During the Monitoring Inspection, children were observed arriving from school and transitioning into snack time. They were also engaged in free play, creating turkey crafts, and preparing to go outdoors.

The Ratio is respected during the monitoring inspection.
