ELCC Licensing Staff Veronique Berube	Position Title Quality Assurance Monitor		

Order for Compliance	Regulation	Date to be corrected	Date corrected
----------------------	------------	----------------------	----------------

General Comments

The Quality Assurance Monitor is on site in the morning to conduct a monitoring inspection. The child to staff ratio was respected during the inspection.

The following elements were verified:

- If all required documents are posted in a visible place in the facility
- Child records
- Signed consent in the child files
- Medication records
- Incident records
- Child guidance
- Health
- Medication
- Nutrition

A discussion was held with the administrator regarding the labelling of the children's personal belongings. The children's water bottle and lunch boxes must be labelled with the name of the children.

The Quality Assurance monitor also had a discussion with the administrator regarding going to a private beach outing with the children. If the facility would like to conduct a beach outing with the children, they must follow the same regulation as a pool outing, regulation 34 (2).

The Quality Assurance Monitor observed the children engaged in creating their own bird house with recycled materials. Open materials like cardboard boxes, pipe cleaners, beads and cords were accessible for the children. The children also transitioned to the outdoor play area. The children were observed going to the wooded area to fill the bird feeders with seeds and to hang their homemade bird house in the trees. The children were also observed looking for bugs in the wooded area. The Quality Assurance Monitor also observed the children going indoors to eat their lunch (lunch boxes). Positive interactions were observed between the educators and the children.
