| 39(2) A licensed facility shall have a separate locked storage space that is inaccessible to the children for each of the following: (a) toxic products, chemical products and cleaning supplies;                                                                                                                                               | 39(2)(a)   | Aug 25, 2026         | Aug 25, 2026   |
| Comments: During the monitoring inspection, the Quality Assurance Monitor observed two bottles of Febreze stored on top of a cabinet at a high level in a washroom. All toxic products, chemical products, and cleaning supplies must be locked and inaccessible to children. The products were immediately locked. Deficiency is now compliant |            |                      |                |
