<p>General Comments</p> <p>During this visit I arrive when most of the children were napping. I had a chance to look at some of the staff files and update First Aid Information for some of the staff Members.</p> <p>As I toured the center the infant room was lively with a couple of the children playing. I observed a bum being changed and the educator was diligent in her duties. She wore gloves and washed her hands and the child's hand when she had completed. Another educator was busy decorating the door with the artwork the children made the day before.</p> <p>The four year olds were outside playing. Majority of the children and one educator were busing building snow sculptures while the other educator and a couple other children where playing on the slide. The 3rd educator for that class was inside cleaning and setting up the room</p> <p>In the toddler room the children here having a good time during their free play. Their was a pile of clean toys on the counter that the educators had cleaned while the children were napping.</p> <p>I heard a lot of positive guidance from the educators. The children seems very happy and content.</p>
