General Comments

The classrooms are clean and organized. There are a variety of material for the children to learn and explore with. Shelves are labeled and materials are arranged on low, open shelves and are easily accessible to the children.

Learning stories and children's artwork is posted throughout the facility.

Each classroom either had invitations set up on the table or sensory bins for the children to explore in.

Proper diaper changing procedures were observed. Educators were observed singing and talking to the children while they were changing the diapers.

During the inspection children were observed participating in a variety of activities such as making crafts, reading, playing with magnetic blocks, cars and cooking in the play kitchen. While outside children were observed driving the tricycles, sweeping the walkway and playing on the slide.

The educators were actively engaged with the children, sitting on the floor playing, reading stories and singing songs. There was communication between the educators on what activities they were going to do or how many children they were taking out of the classroom.

The facility seemed to be running smoothly during the visit.
