General Comments

A wall has been built separating the younger and older school age children. It has calmed the environment and noise level. It was a positive renovation.

Children were getting ready to go outside at time of visit. Staff were patient, using only positive child guidance at time of visit.

It is recommended that staff wipe down tables after snacks and both staff and children are encouraged to pick up the environment before moving onto the next activities.

The toxics had a child proof lock on the cupboard which can be accessible to school age children. A lock and key was put on the cupboard at time of visit.
