<p><b>General Comments</b></p> <p>There were only 7 children in attendance as it was March break. The children and educators were engaged in a variety of activities such as a sensory bin with baking soda, corn starch, shaving cream, water green food coloring, and gold coins. Some of the children were doing crafts with iron beads, playing with play doh and playing air hockey, The facility has purchased new materials since the last visit. There are new couches for quiet area, and wooden kitchen sets in the dramatic play area as well. I was advised by the educators that there more materials have been ordered as well. The children's files were reviewed. The files were very organized and contained all the required documents. Although the facility is clean and organized, the walls are in poor condition. Paint is peeling and there are chips and holes from hanging items on the wall. This makes the walls difficult to clean. It is strongly recommended that the walls be repaired and painted.</p>
