General Comments

Licensing Staff arrived at the facility to introduce themselves as the facilities new Quality Assurance Monitor and perform a Monitoring Inspection. Upon arrival, the children in the 2-year-old classroom were slowly waking up from quiet time while the other classes were outside in the outdoor play area.

As the children woke up in the 2-year-old classroom, they were observed sitting at the table for afternoon snack. Once the children had finished eating, diapers were changed, and sunscreen was applied before they transitioned to the outdoor play area. The preschool and school age children had their afternoon snack outside. Throughout the afternoon the children were engaged in a variety of activities. A small group of children sat together, building a train track and train station with a wooden train set that was brought outside. Other children were observed jumping on wooden stumps, climbing and sliding down the play structure and making bracelets with crafting materials that were brought outside.

The indoor environment was bright, clean and welcoming. Binders and notebooks with webbing and evidence of purposeful planning were reviewed. Current learning stories and pictures of the children were posted throughout the facility. Only positive child guidance was observed during today's Monitoring Inspection. The Educators were attentive to the needs of the children and were actively engaged in play.
