<p>General Comments</p> <p>When I arrived for the monitoring visit the 4 year old children were already outdoors playing and the 2 and 3 year old's were getting dressed to also go outside. Educators used a lot of patience and encouragement while helping children with their winter clothing. Children are encouraged to practice independence and try to get their mitts tucked in their sleeve or put their boots on but educators are close by to assist when needed. Children are also given a lot of time to get dressed and not rushed. The educators understand that getting dressed is an important skill for the children and this transition from getting dressed to the outdoor play space went very smoothly.</p> <p>When children were outdoors I observed children playing with slides on the hill and digging in the snow with buckets and shovels. Educators comforted children when they were cold or tired and played along in their imaginative games.</p> <p>A group of children are potty training and educators made trying to use the toilet a fun and exciting experience. Children had ample time to try and I observed children washing hands after using the washroom. I checked the diapering area in the twos room and everything was in compliance.</p> <p>The rooms are inviting, clean and organized. Family photos are displayed and recent documentation is posted. I saw process art that the children have created and connections to the curriculum are evident in the rooms.</p> <p>The menu is posted and substitutions are noted. Children bring their own lunches from home and educators joined the children when eating. There was a lot of rich conversation at lunch. Educators used different moments and situations to introduce new vocabulary to the children. Please ensure that water bottles are labelled with the children's names.</p>
