<p>General Comments</p> <p>Licensing Staff arrived at the Facility to perform a Monitoring Inspection. Upon arrival the children who sleep during quiet time were in the process of waking up. The children who do not nap were playing quietly at the tables with puzzles, barbies and blocks. Once all the children were awake, they went back into their classrooms.</p> <p>In the 2's classroom the children were observed playing with dolls, playing dress up and playing with puzzles. In the 3's classroom, the Educator had put a variety of materials on the table for the children, such as leaves, cups, string, rubber bands, balls, cardboard and glue. The children were seen creating musical instruments, balancing balls on top of the cups and creating their own artwork. The 4's were busy making an apple tree craft and drawing on a whiteboard. All rooms were observed cleaning up together as a class and getting ready for afternoon snack. Tables were cleaned before and after afternoon snack.</p> <p>All Educators were engaged with the children throughout the visit. Educators played dress up with the children and were seen offering assistance when needed. Allergies are posted and visible in each classroom. Current learning stories and children's artwork were on display in the classrooms. To build on this, as per the New Brunswick Curriculum for Early Learning and Childcare, it is encouraged to include additional photos of the children engaged in the activities and posted at their level. Family and peer photos are excellent ways to create a more reflective sense of self, others and feeling represented.</p>
