General Comments
<p>Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival the children were in the process of waking up from quiet time. Diapers were changed as the children woke up, and bathroom runs were made for the older children.</p> <p>Children were observed playing with foam blocks, coloring and playing with ocean animals. In the 2's classroom an Educator was observed reading a dinosaur book to a child with others played with baby shark magnetic toys on a cookie sheet. All classes have been preparing for Valentines Day. In the 3's classroom, a class picture with Valentine's Day stickers, red and pink markers and pipe cleaners was displayed on a board. The 4-year-old-class made headbands with purple and red pipe cleaners and pink foam hearts.</p> <p>Proper hand washing was observed before the child sat down for afternoon snack. As the children finished eating, lunch boxes were put away, hands were washed and the children prepared to go play outside. Child files were reviewed during today's monitoring inspection. All files contained required documents. Allergies are posted in each classroom. The children's belongings are all labelled and stored separately. Current learning stories and pictures of the children were observed in each room. Only positive child guidance was observed during today's visit.</p>
