### General Comments

Licensing Staff arrived at the facility to perform a Monitoring Inspection. Upon arrival, all classes were outside in the fenced in play area. Families were greeted and children were signed in as they arrived in the morning. Sunscreen was applied as the children arrived, hats were put on and water bottles were filled.

The outdoor play area is well shaded and offers a variety of play materials for the children. This morning a small group of children eagerly told Licensing Staff they were digging for worms. The children used large spoons, bowls and muffin tins as they dug a hole in hopes of finding a worm. At one of the picnic tables another small group of children sat together coloring and tracing different shaped stencils. Later in the morning the children lined up to go inside to wash their hands for morning snack. One Educator stayed outside to sanitize the picnic benches. One Educator played "Simon Says" with a large group of children while another clean the picnic tables from snack time. Multiple water breaks were taken while the children were outside.

The transition from the outdoor play space to the indoor classroom was smooth. Children were observed washing hands as they entered the facility and changed into their indoor shoes. Once inside the classes settled into different tabletop activities. Some children chose to do puzzles with others played with cars and looked at books. Only positive child guidance was observed during today's Monitoring Inspection. The Educators were attentive to the needs of the children and were actively engaged in the activities.
