**General Comments**

Licensing Staff arrived at the facility to conduct a Monitoring Inspection. Upon arrival, the children had not yet arrived on site. The Educator was waiting at the bus stop to greet the children. Attendance records and a first aid kit was brought outside. Once the bus arrived, children were greeted and signed in before transitioning to the fenced in backyard.

The children have been showing an interest in hockey cards, so the Educator brought a large box full of hockey cards today. The children were seen comparing and sorting the hockey cards throughout the afternoon. Today the group decided they would divide into two teams and play capture the flag. The group played several rounds, adjusting the rules and offering to change sides to keep the game interesting. Children who no longer wanted to play were still included in the activity by being a referee. The Educator was actively engaged in the activities, offering support and suggestions to both teams.

End of day pick up was observed and the Educator engaged in conversations with guardians. Positive child guidance was observed at all times during today's Monitoring Inspection. Staff and child profiles were reviewed and contained all appropriate documentation. The outdoor maintenance checklist and monthly Fire Drills are being conducted and documented. Toxic products were properly stored and locked on site.
