<p><b>General Comments</b></p> <p>There is a pre-planned program in place for school age children. Educators engage with children and promote positive language and behaviours. There were 3 groups at time of visit and each time the licensing staff entered the groups, the educators were engaged in conversation or play with the children. Gentle reminders are given and educators were heard working through challenging situations with the children in a positive manner.</p> <p>The filing system is very organized and licensing staff was able to verify all information upon request. Program Manager stated that they have not had to use potential illness forms. It is understood that the potential illness forms are required every time a child leaves the facility ill. Incident reports are being maintained</p> <p>Facility is documenting any pre-packaged snacks that they may offer the children. However, facility is not preparing snacks or lunches.</p> <p>Covid-19 guidelines are being followed. Screening protocols are put into place, hand washing is apparent, bubbles are being kept with logs being recorded, cleaning is being completed and signage is in place. Infrared thermometers are only being used for those people over the age of 12.</p> <p>Toxic Products and medications are being stored appropriately; under lock and key.</p>
