### General Comments

Children were outside this morning playing in the outdoor play area. Games had been set up inviting children to play as well as the permanent resources such as sandboxes, play structures, climber, houses, and play kitchen. Resources are located next to items to support play. Plants and flowers have been planted in tires throughout the space and children ensured they were watered. A shaded area is provided over one of the sandboxes and kitchen. A second shade located on the play structure but has been removed due to damage caused after hours. The facility is considering how to create a shaded area again without the risk of it being damaged. The outdoor play space has boards located throughout the area, logs in tires and additional spaces to allow children to balance and enjoy the game the floor is lava as they were playing today.

Snack was as noted on the summer menu, bagels, cream cheese and jam and children were invited to snack and given a choice if they wanted snack and how they wanted it.

Educators were engaged with children offering to join them in games, playing card games, and having discussions. Children were independent in choosing activities and moving throughout the space.

New staff files were viewed as well as four child files and everything was in order and complete. The indoor space provides a variety of resources and areas to play but children prefer to spend time outside, especially on summer days. Children's artwork and documentation of their learning is posted throughout the space.

The program was going on a field trip today to Hanwell Park. Children were asked to wash their hands, visit the washroom, and get their bookbags in preparation for the bus picking them up.
